Proposed Changes to LTC Routes

To Caroline Roy <croy@londontransit.ca> Blind copy renemck@sympatico.ca

Caroline,

Thank you for returning my call this morning.

Regarding the submission deadline of January 23, 2019 please find enclosed the information that has been issued by FLAG - Fly London Attractions Group.

We are a group of businesses with goal of having the LTC provide regular scheduled service to the London Airport area. Currently Route 32 provides Monday - Friday

service. This is basically serving the airport employees.

Increased transportation to the "FLAG" area will promote an increase in tourism for the East London area.

We spoke about yesterday's news release regarding Swoop. The estimate is that there will be 200,000 passengers using this service which will operate six flights per day

(three departures and three arrivals). This amazing opportunity for London will most definitely require the LTC to review and update service to this area of London. It will also

provide the LTC to consider additional service for the FLAG area.

We look forward to the opportunity to participate at the meeting January 30, 2019 at 5:00pm.

Respectfully submitted.

Rene McKinnon

427 (London) Wind

P.S. I will drop off our submission during the day.

FLAG

Welcome to FLAG,

Your destination for intrigue, excitement and adventure. We are the landing place for young and old and everyone in between. See you soon!

Who we are:

- 427 Wing - <http://www.427wing.com>
