

# London Transit Commission: Proposed Changes Presentation

Danny Chang  
Vice President

# Changes to Route 34 & 10

- The changes to route 34 will impact students near the Masonville area getting to campus in the morning to Alumni Hall.
- Changes from Route 10 to service mall hours (9am - 9pm) were meant to balance these changes
- Unfortunately, this service impacts all students who have class at 8am & 8:30am, particularly students with classes near Alumni Hall (bus-stop location)

# Constituencies Impacted

[Often mandatory] 8am & 8:30am class start-time

- Ivey HBA, MSc, and MBA students
- Faculty of Law students
- Faculty of Information and Media Studies students
- Engineering students
- Health Sciences students
- Nursing students

# Proposed Solution

The University Students' Council (USC) at Western University proposes that the service of the Route 10 be extended to 6:30am in the morning with more frequent service.

- Allows students time to get to campus on-time
- Does not significantly impact other proposed routes
