Route Information

Boarding the Right Bus:

Some routes cover a common section and then split into "A" and "B" to cover different destinations at the end of the route. It is important to check both the route name and the destination sign to ensure that you are travelling in the right direction and towards your final destination.

The route number and destination are displayed on the bus' large overhead sign and also audibly announced when the bus stops and the doors are opened.

The purpose of splitting routes is to make the LTC as efficient as possible.

Route Guide

All buses are low floor accessible.
All buses have bike racks.
In congested areas of the map, this thick line indicates multiple routes traveling on the same road.
