

August 13, 2025

Dear Commissioners,

For the upcoming LTC meeting agenda, I wanted to add the following:

I'd like LTC staff to report back on improvements that can be made in our planning and coordination processes for construction projects. I am interested in complete street designs that incorporate transit. My example is Sunningdale Rd. while these needed improvements are being done along the roadway, the LTC stop isn't being upgraded (although there were concerns expressed through the construction consultation process- from the public). Bus shelters should be evaluated to coincide with these projects, so they become a more seamless part of infrastructure improvements- the end result is all modes are addressed and "upgraded" where possible at the same time.

I'd still like to see these improvements included in the Sunningdale project. Can I direct that a shelter/shelters added to the 2026 workplan?

Sincerely,

A handwritten signature in black ink, appearing to be 'CR' with a stylized flourish.
